

**Professional Standards Framework
NSW Nominal Insurer & Treasury Managed Fund
Workers Compensation – V6 December 2024**

Minimum Standards for Role Functions

Minimum standards have been designed around the core role functions within and aligned to the icare claims service model.

Case Manager:

This function is responsible for most of the day-to-day management of claims. Role titles commonly used for this role include: Case Manager, Claims Advisor and Case Management Specialist. Case Managers have diverse portfolios, including low risk and complex claims. This role function encompasses all claim types, including niche portfolios such as Fatalities, Industrial Deafness (ID), Work Injury Damages (WID), Tail, Low Risk and Mobile Case Management.

Team Leader:

This function is responsible for the operational planning using data and SME insight as required, to provide adequate workflow steerage, individual and team coaching, oversight and supervision of a team of claims professionals. Other roles may also report into this function at the discretion of the employing organisation.

Technical:

This function is responsible as a point of escalation for technical claims decisions and also provides support, guidance, coaching and oversight of the application of the legislative and regulatory framework applicable.

Injury Management:

This function is responsible as a point of escalation for decisions relating to treatment and return to work, and to provide support, guidance, coaching and oversight of recovery and return to work strategies and progress towards outcomes for claims managed within the team.

The Professional Standards Framework makes reference to injured workers and other stakeholders. These are:

Injured People:

Those icare serves, being the people icare cares for as a result of injury or illness.

Stakeholder:

Those icare serves, being the businesses and agencies that icare provides services to or works with in providing services to injured workers.

Structure of the Professional Standards Framework

icare has committed to a co-design approach with Claims Service Providers and has consulted regulators, its external advisory committee, and interjurisdictional counterparts to develop the structure of the Professional Standards Framework

Professional Standards Framework Focus

The Professional Standards encompass the practices, skills, knowledge and behaviours that are critical for claims management teams to promote professional growth and aspiration towards industry best practice.

Positive Connections

We collaborate and communicate openly to create positive experiences.

Empowered Leadership

We inspire and empower others to maximise potential and achieve common goals.

Holistic Case Management

We take a holistic approach to facilitate recovery and return to work.

Scheme Regulation

We adhere and comply to the NSW workers compensation legislation, regulations, standards and guidelines.

Bringing Best Self

We role model behaviours and mindsets that bring our best self to work, and we support others.

Business Enablers

We apply the right skills, tools and resources to achieve timely and quality outcomes.

Professional Standards Proficiency Levels

Each competency is divided into four levels of proficiency, which provides a pathway that progressively increases in complexity. For each level, the knowledge of the lower level(s) is assumed.

Foundational

Understands and identifies the fundamental concepts and competencies in case management.

Identifies when support is required, particularly in regards to complex tasks.

Intermediate

Applies the concepts and competencies in case management for complex situations.

Requires occasional support, particularly in regards to complex tasks.

Advanced

Independently applies the concepts and competencies in case management with ability to influence others.

Supports and guides others.

Expert

Applies concepts and ideas to respond to new and emerging situations, understands organisational issues and trends and proactively devises strategies to mitigate impacts to ensure optimal recovery, return to work and business outcomes are achieved.

Coaches and guides others on the application of all competencies and is recognised as specialist in exercising the competencies.

Makes strategic decisions to support business objectives.

Positive Connections

Core Competencies:

- Effective Communication
- Empowering People
- Engagement and Collaboration
- Conflict Resolution
- Ethical Conduct

We collaborate and communicate openly to create positive experiences.

Positive Connections

We collaborate and communicate openly to create positive experiences.

	Effective Communication	Empowering People	Engagement and Collaboration	Conflict Resolution	Ethical Conduct
Case Manager	Foundational	Foundational *	Foundational	Foundational	Foundational
Team Leader	Advanced	Intermediate	Advanced	Advanced	Advanced
Technical	Intermediate	Foundational	Advanced	Intermediate	Intermediate
Injury Management	Intermediate	Advanced	Advanced	Intermediate	Intermediate

* Niche Case Manager roles excluded from demonstrating this core competency: Fatalities, Industrial Deafness (ID), Low Risk, Tail Medical and Work Injury Damages (WID)

Communicates with honesty, openness, and transparency, in both verbal and written forms to build trusting, empathic partnerships and shared objectives.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert (N/A)
Understands and provides accessibility services when required.	Applies verbal and non verbal communication skills that positively affect relationships with stakeholders.		
Communicates with empathy, clarity, fairness and transparency, in both written and verbal communication to build trust and common objectives.	Adapts communication methods, styles and frequency as necessary when approaching complexity to address the needs of different audiences.	Communicates with a clear understanding of the impact, key issues and negotiates with influence whilst maintaining rapport and trust.	
Uses communication skills such as active listening and plain language to deliver information and solutions clearly.	Understands and clearly communicates legislative requirements when communicating with stakeholders allowing for transparency.	Evaluates own communication for appropriate language, clarity of information, consistency and compliance.	

Empowering People

Enable workers and employers to achieve successful recovery and return to work outcomes, through identification of their needs and sharing of information, tools, and resources.

Foundational Case Manager, Technical	Intermediate Team Leader	Advanced Injury Management	Expert
Identifies the suitable information, tools, resources, and services that support stakeholder decision making to optimise worker recovery and return to work outcomes.*	Provides access to suitable information, including understanding terms of health literacy, tools, resources, and services that improves decision making to optimise recovery and return to work outcomes.	Provides 1:1 internal support and broader coaching (when requested) on availability of suitable information, tools, resources, and services that improve decision making, optimise worker recovery and return to work outcomes.	
Identifies the needs of the injured person that will achieve successful recovery and return to work outcomes.^			

* Niche Case Manager roles excluded from demonstrating this core competency: Fatalities, Industrial Deafness (ID), Low Risk, Tail Medical and WID (Work Injury Damages).

^ Niche Case Manager roles excluded from demonstrating this core competency: Fatalities, Industrial Deafness (ID) and WID (Work Injury Damages).

Build and manage effective partnerships through engagement and collaboration, to identify effective solutions and drive better outcomes for injured people.

Foundational Case Manager	Intermediate	Advanced Team Leader, Technical, Injury Management	Expert
Understands the benefits of working in consultation and collaboration with injured people and other stakeholders.*	∞ <i>Applies skills to work in consultation and collaboration with others in supporting colleagues, injured worker and other stakeholders.</i>	Fosters teamwork and collaboration to develop solutions and achieve outcomes for injured people.	
Understands the role of the injured person and employer as the 'customer', and the role of other stakeholders in the workers compensation system.*	∞ <i>Demonstrates and supports others in claim experience and technical knowledge to support the worker and employer as the 'customer', and the role of other stakeholder in the workers compensation system.</i>	Anticipates and supports injured people and/or other stakeholder needs and expectations through the provision of technical knowledge.	
Understands the relevant legislation and regulatory guidelines pertaining to workers compensation claims management.	∞ <i>Demonstrates and supports others using their working knowledge of relevant legislation and regulatory guidelines pertaining to workers compensation claim management.</i>	Supports stakeholder interactions with injured people and/or other claim stakeholders to drive better claim outcomes in accordance with relevant legislation and regulatory guidelines.	

∞ This symbol represents a GAP in proficiency requirements, meaning there are no roles currently mapped to that proficiency level. Whilst not mapped to a role, these descriptors provide stepping stone competencies to help an aspiring proficiency role to transition into the experienced proficiency role. * **Niche Case Manager roles excluded from demonstrating this core competency:** Fatalities.

Conflict Resolution

Identify, mitigate, and resolve conflict in a timely manner to improve outcomes for injured people and maintain positive working relationships by utilising conflict resolution process and guidelines.

Foundational Case Manager	Intermediate Injury Management, Technical	Advanced Team Leader	Expert
Understands the difference between a complaint, feedback, enquiry, dispute and litigation and appropriate processes.	Understands the impact of own actions on relationships with stakeholders and identifies opportunities to improve those relationships.	Applies correct processes to mitigate, resolve and/or escalate conflicts in a timely manner to minimise impact on the injured person.	
Identifies the internal management, technical and legal referral processes to support conflict resolution.	Acknowledges issues of conflict and actively supports stakeholders in conflict resolution processes.		
Understands the referral documentation and / or process that is to be used to escalate conflicts to internal teams.	Prepares objective and concise referral documentation to escalate conflicts to internal teams.	Prepares and when asked to do so, represents the business, with responding to conflicts referred to icare, the regulator or Independent Review Office (IRO).	

Act with integrity and apply ethical decision making to protect injured people.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert
	Applies ethical decision making to comply with organisational policy, procedure, regulatory principles of practice and relevant legislation.	Promotes and models ethical decision making with workers, employers, colleagues and other key stakeholders.	
Understands and identifies ethical situations that may impact on decision making.	Provides support for dealing with possible ethical issues that arise from legislative or regulatory application.	Anticipates and evaluates risks and impacts of ethical situations that may arise and develops effective strategies to manage this.	

Empowered Leadership

Core Competencies:

- Coaching
- Driving Performance
- Managing Change

We inspire and empower others to maximise potential and achieve common goals.

Injury Management	Intermediate	Intermediate	Intermediate

Coaching

Motivates self and others to set goals, develop capability and achieve performance outcomes through influence, feedback, and coaching.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert
Seeks feedback and guidance to develop self.	Offers support, provides constructive feedback and drives knowledge exchange with a coaching mindset.	Builds claim management capability and contributes to the organisation's learning and development culture and growth.	
Demonstrates effective learning techniques such as active listening, effective questioning, an ability to overcome barriers when being coached and is solution focused.	Applies effective 1:1 and broader audience coaching techniques (when requested) such as active listening, effective questioning and is solution focused to support the professional development of others.	Identifies, develops and coaches talent through encouragement, motivation and recognises their team to engage in setting goals, career planning and continuous learning for professional development.	
	Adapts the structure and delivery of information to support different audiences to achieve results and develop capability.	Develops information, including the structure and delivery, to support different audiences achieve business results.	

Driving Performance

Builds the skills and tools to think like a business leader, and to understand, set and execute the right strategies to drive continuous improvement, outcomes, and performance.”

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced	Expert Team Leader
Understands own performance drivers and how they contribute to their performance and overall team goals.	Understands and supports team by identifying connections between professional development goals and organisational objectives.		Sets team direction goals and objectives to drive performance.
Understands and identifies opportunities for continuous improvement.	∞ Understands how to develop an improvement plan for others to drive continuous improvement.	∞ Understands how to drive and execute improvement plans for a team.	Contributes to an accountable and continuous improvement culture by seeking opportunities for improvement and performance outcomes.
Understands time management and ensures work allocation expectations are met.	∞ Understand how to apply the skills and experience of others to deliver injured person, team, and business objectives.	∞ Understands how to develop, implement, and monitor appropriate team resourcing and work allocation according to need.	Manages workforce planning and operational priorities to ensure appropriate allocation of time and other resources that support optimal operational outcomes.

∞ This symbol represents a GAP in proficiency requirements, meaning there are no roles currently mapped to that proficiency level. Whilst not mapped to a role, these descriptors provide stepping stone competencies to help an aspiring proficiency role to transition into the experienced proficiency role.

Managing Change

Ability to lead, assess, prepare, and support the implementation of sustainable change by effectively managing impact and resistance.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert
Recognises and understands the need for workplace and work activity changes.	Early adopter of change and assists others throughout the change management cycle.	Commits to change and engages in effective communication during the change process.	
Identifies potential impacts of change and adapts by remaining flexible.	Deals with uncertainty and supports others in understanding the impacts of change and the connection to business objectives.	Analyses change, determines impacts and manages potential resistance through mitigation techniques.	

Holistic Case Management

Core Competencies:

- Medical Management
- Injury Management Planning
- Return to Work Planning
- Strategic Thinking and Risk Analysis

We take a holistic approach to facilitate recovery and return to work.

^^ Niche Case Manager roles excluded from the second Foundational statement only: Low Risk, Tail Medical and Mobile Case Manager

Legislation and Compliance

Knowledge of legislation as applied to Workers Compensation, administrative law, and the compliance requirements established by icare, the Regulator and the Claims Service Provider or Agent.

Foundational Case Manager	Intermediate Team Leader, Injury Management	Advanced Technical	Expert
Identifies the correct workers compensation acts and other relevant legislation, compliance and regulatory standards of practice relevant to claims management.	Applies workers compensation legislation and compliance accurately and complies to and within delegated authority.	Provides 1:1 internal support and broader coaching (when requested) on compliance issues (including compliance with delegated authority), legislative, regulatory and technical issues on privacy or information security law or fraud.	
Understands legislation regarding obtaining and sharing of information under privacy, security information law and fraud.	Discuss and support stakeholder's understanding with adhering to the correct privacy, information security laws, processes and fraud.		
Seeks technical support and guidance where needed.			

Eligibility and Liability

Knowledge and skills to make decisions in alignment with claim eligibility and enact liability decisions on new, ongoing and recurrent claims, in accordance with relevant policies, workers compensation legislation and industry standards

Foundational Case Manager, Team Leader	Intermediate Injury Management	Advanced Technical	Expert
Understands medical and factual information and how to make evidence based, timely and sound eligibility and liability decisions in accordance with relevant legislation and regulatory requirements, and understands the impact of decisions on injured people, inclusive of those with psychological injuries.	Interprets medical and factual information to make evidence based, timely and sound eligibility and liability decisions in accordance with relevant legislation guidelines, and understands the impact of decisions on injured people, inclusive of those with psychological injuries.	Provides 1:1 internal support and broader coaching (when requested) on gaps and inconsistencies in information and/or on complex application of case law to enable evidence based, timely and sound eligibility and liability decisions in accordance with relevant legislation.	

Weekly Benefits and Entitlements

Understanding of how weekly benefits, Work Capacity Decisions and other payments and entitlements are calculated according Workers Compensation regulations and legislation

Foundational Case Manager	Intermediate	Advanced Technical	Expert
Obtains the information required to calculate weekly benefits, including changes to benefits as needed (e.g., Pre-Injury Average Weekly Earnings (PIAWE), Average Weekly Earnings (AWE), Current Weekly Wage Rate (CWWR), Work Capacity Decisions). *	∞ <i>Calculates weekly benefits, including changes to benefits as needed (PIAWE, AWE, CWWR, Work Capacity Decisions) in line with legislative requirements, Regulatory Guidelines, Standards of Practice, and organisational procedures, on complex claims.</i>	Reviews and approves complex weekly benefit calculations, including changes to benefits as needed (PIAWE, AWE, CWWR, Work Capacity decisions) that include multiple components.	
Understands the relevant legislation and Regulatory Guidelines that relate to permanent impairment entitlements.#	∞ <i>Applies the relevant legislation and Regulatory Guidelines to assess and calculate non-complex permanent impairment entitlements, and other benefits throughout the life cycle of a claim.</i>		

* **Niche Case Manager roles excluded from demonstrating this core competency:** Fatalities, Industrial Deafness (ID), Tail Medical CM, Mobile Case Manager and Work Injury Damages (WID)

Niche Case Manager roles excluded from the second Foundational statement : Fatalities, Low Risk, Tail Medical CM and Mobile Case Managers

∞ This symbol represents a GAP in proficiency requirements, meaning there are no roles currently mapped to that proficiency level. Whilst not mapped to a role, these descriptors provide stepping stone competencies to help an aspiring proficiency role to transition into the experienced proficiency role.

Documentation and Records Management

Record, maintain and update information and communications which are timely, objective, accurate and succinct to ensure data integrity.

Foundational Case Manager	Intermediate	Advanced Team Leader, Technical, Injury Management	Expert
Documents appropriate evidence based recovery / return to work goals and timeframes clearly and succinctly in line with compliance requirements. *	∞ <i>Records and distributes claims information in accordance with organisational and legislative requirements by using relevant systems to keep information and claim data accurate and up to date.</i>	Provides 1:1 internal and broader support (when requested) to guide and coach others on documentation guidelines, risks and implications for not keeping accurate and complete records.	
Understands the implications of maintaining the confidentiality, accuracy and security of information and data fields, including prompt update of information / data as worker circumstances change.	∞ <i>Adheres to privacy and consent obligations whilst maintaining confidentiality, accuracy and security of information and data fields when completing prompt update of information/data as worker circumstances change.</i>	Interprets, analyses and records relevant claims data and identifies strategies to support peers in a range of challenging situations.	

* **Niche Case Manager roles excluded from demonstrating this core competency:** Fatalities, Industrial Deafness (ID), Low Risk, Tail Medical CM and Work Injury Damages (WID)

∞ This symbol represents a GAP in proficiency requirements, meaning there are no roles currently mapped to that proficiency level. Whilst not mapped to a role, these descriptors provide stepping stone competencies to help an aspiring proficiency role to transition into the experienced proficiency role.

Bringing Best Self

Core Competencies:

- Manage Self
- Sound Judgement
- Accountability
- Diversity and Inclusion

We role model behaviours and mindsets that bring our best self to work and we support others.

Injury Management	Intermediate	Advanced	Advanced	Intermediate

Manage Self

Develops a growth mindset and resilience by embracing challenges as opportunities, demonstrating initiative and perseverance.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert
Shows drive and motivation with a commitment to professional development and continuous learning by seeking support and feedback.	Reflects on feedback and works with leader/manager to identify development opportunities.	Embraces feedback as opportunities for growth by demonstrating initiative to achieve objectives.	
Recognises barriers and obstacles and displays persistence to adapt to new situations demonstrating flexibility and adaptability.	Demonstrates initiative to identify solutions and overcome barriers.	Embraces innovation and change by recovering from setback and actively finding alternate solutions.	
Monitors own emotional reactions and understands strategies that can be used to remain calm.	Displays a positive outlook in challenging situations and responds in a flexible, positive manner to change.	Uses a range of strategies to remain composed and calm and act as a stabilising influence on colleagues.	

Sound Judgement

Evaluating situations or circumstances with objectivity, fairness, and reason to form considered decisions.

Foundational Case Manager	Intermediate	Advanced Team Leader, Technical, Injury Management	Expert
Understands the principles of fair and reasonable treatment of injured people. ^	∞ <i>Applies the principles of fair and reasonable treatment of injured worker and provides others with 1:1 support when requested.</i>	Provides 1:1 internal and broader support (when requested) to guide and coach others on the principles of procedural fairness.	
Understands the relevant legislation, regulatory requirements, and commitments to injured people, including those outlined by the Professional Standards Framework, to support fair and objective treatment of injured people.^			
∞ <i>Understands how to conduct a claim review and the principles of sound decision making.</i>	∞ <i>Understands how to conduct a claim analysis and determines whether the principles of sound decision making have been applied.</i>	Applies objective and systematic analysis to form conclusions based on evidence and is aware of assumptions and unconscious bias when weighing options to make sound decisions.	

∞ This symbol represents a GAP in proficiency requirements, meaning there are no roles currently mapped to that proficiency level. Whilst not mapped to a role, these descriptors provide stepping stone competencies to help an aspiring proficiency role to transition into the experienced proficiency role. ^ **Niche Case Manager roles excluded from demonstrating this core competency:** Fatalities

Taking responsibility of one's actions by being accountable, responsible, and responsive

Foundational	Intermediate Case Manager	Advanced Technical, Injury Management	Expert Team Leader
	Takes accountability for development opportunities, seeking professional growth and development.	Recognises success and responds to identified opportunities for professional development.	Accepts accountability for identified self and team professional development opportunities and takes corrective action in a timely manner.
	Follows through with commitments and encourages others to do the same by managing work and timeframes to achieve results.		

Diversity and Inclusion

Behaving in a manner that makes injured person and others feel comfortable, respected, and valued.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert
Shows respect for diverse backgrounds, experiences and perspectives and is open to diverse thinking, opinions and ideas of others.	Uses language and concepts (this can include appropriate to social, economic, cultural, gender and physical differences) to make others feel comfortable, respected and valued.	Promotes inclusive behaviours by role modelling a person focused culture that considers diversity.	

Business Enablers

Core Competencies:

- Financial Acumen
- Digital Literacy
- Portfolio Management

We apply the right skills, tools and resources to achieve timely and quality outcomes.

Business Enablers

We apply the right skills, tools and resources to achieve timely and quality outcomes.

	Financial Acumen	Digital Literacy	Portfolio Management
Case Manager	Foundational	Foundational	Foundational
Team Leader	Advanced	Intermediate	Advanced
Technical	Advanced	Intermediate	Intermediate
Injury Management	Intermediate	Intermediate	Intermediate

Understanding of financial requirements and cost drivers of Workers Compensation to support scheme sustainability.

Foundational Case Manager	Intermediate Injury Management	Advanced Team Leader, Technical	Expert
Understands how claim costs may impact scheme sustainability.	Understands the claim costs, risk factors and implications on scheme sustainability.		
Recognises the different types of recoveries and where there is a potential recovery on a claim.	Identifies recovery opportunities to instigate the recovery process.	Identifies claims with recovery opportunities and notifies appropriate stakeholders when there is a potential recovery on a claim to instigate the recovery process.	
Understands the relevant guidelines, regulations and gazetted payment rates to approve invoices on claims in a timely manner. [^]	Independently applies knowledge of financial requirements to approve accurate and timely payments.	Provides 1:1 internal and broader support (when requested) to guide and coach others on how to negotiate a solution and/or resolve complex or sensitive issues related to financial requirements.	

[^] **Niche Case Manager roles excluded from demonstrating this core competency:** Work Injury Damages (WID)

Digital Literacy

Uses information in multiple formats and from a range of sources to obtain, manage, create, and communicate data, information, and ideas for effective claims management.

Foundational Case Manager	Intermediate Team Leader, Technical, Injury Management	Advanced	Expert
Understands various types of communication and collaboration strategies, tools and digital formats.	Demonstrates initiative to use various types of communication, systems and platforms to access data, information, and content in digital platforms.		
Identifies different sources of data, information and digital content.	Compares the credibility and reliability of sources of data, information and digital content.		

Portfolio Management

Prioritise, plan, and manage workload, and ensure the appropriate allocation of time and other resources to achieve high quality outcomes and resolve critical issues.

Foundational Case Manager	Intermediate Technical, Injury Management	Advanced Team Leader	Expert
Plans own time and work to meet business requirements, targets and timeframes with an expected workload.	Prioritises and organises own time and work with relatively higher than expected workload and communicates to those affected if plans cannot be met.	Prioritise, plan, and manage workload, and ensure the appropriate allocation of time and other resources to achieve high quality outcomes.	
Ability to use tools and techniques to plan and organise time and work more effectively.	Reviews existing ways of planning and prioritising work to find more efficient ways of working.	Provides 1:1 internal support and broader coaching (when requested) to utilise tools and techniques to prioritise, plan and manage work to achieve high quality outcomes.	
Identifies when urgent action is required to resolve critical issues.	Initiates appropriate urgent action to resolve issues when required.	Guides others to take appropriate urgent action to resolve issues.
